STEP 7.2 Learn RF code

Long press

- Choose a room for this appliance and name it.
- Tap "Use device now" to the panel page, then tap a gray button to learn.
- If you have physical remote, keep it close to universal remote and follow the wizard to learn the button.

STEP 7.3 If no physical remote

- If you can't find physical remote, please input the frequency, make sure your RF device is in pairing mode, press the "on" button in App and complete the learning if the RF device is responded.
- Repeat the learning process until all buttons you need are learned then go to Step 8.

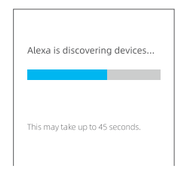
STEP 8 Download Alexa, Google home

- Download the latest version of Alexa or Google Home APP.
- In Alexa APP, tap " ≡ ", and choose "Skills & Games". Tap "Q" to search and enable "BroadLink".
- In Google Home APP, tap "+" and choose "Set up device". Tap "works with Google", then search and enable "BroadLink".

STEP 9 Link account

- Tap "BroadLink account " and sign in.
- Link your email with Apple ID or Google account for quick sign-in later (optional)
- Complete the skill account linking.

STEP 10 Discover devices



- After discovering devices, you will be able to control the device by APP or voice. Congratulations!
- If you are setting up the second device, you will get notification from Alexa after STEP 6 is completed, or you can find the device in Google Home APP after few minutes.

Online support

1. APP "Help center"
   - Sign in BroadLink APP.
   - Tap ⓘ on top of APP homepage to access help center for more information of each product and APP functions.
   - Tap "Feedback" on bottom to submit your issue for our prior customer support.
2. Tutorial video
   - Search "BroadLink International" to find device setup video in YouTube.
   - You can also use other social platforms to get more information.

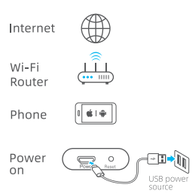
72mm

STEP 1 What's required



- A smartphone or tablet running iOS 9.0 / Android™ 4.1 or higher.
- A 2.4GHz Wi-Fi network with Internet connection.
- Power on the device and make sure the LED indicator or bulb is flashing intermittently.

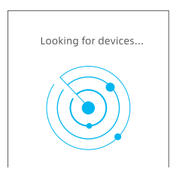
STEP 2 Get the APP

- Connect your smartphone to your home Wi-Fi network (2.4GHz only).
- Download the latest "BroadLink" APP from APP Store, Google Play and install it on your smart phone.

STEP 3 Sign in APP

- Open the BroadLink APP, tap "BroadLink account" and sign in to your cloud account.
- If you don't have an account, tap the "Sign up" to create a new account.
- Link your account with Apple ID or Google account for quick sign-in next time (optional).

STEP 4 Add device in APP



- Tap "+" on top right corner and choose "Add device".
- The APP will start to scan and look for your device SSID "BroadLink_WiFi_Device" automatically, it may take up to 1 minute.

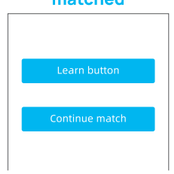
STEP 5 Connect device to Wi-Fi network

- Choose your home Wi-Fi network, input password and tap "Connect to Wi-Fi", the LED indicator will be flashing slower and then off. The device is successfully connected.
- Choose the room and name the device.

STEP 6.1 Add IR appliances

- Tap "Add appliances". Choose a category (ex. TV).
- Choose a brand, and find the best IR code from options.
- If you don't find your brand, Tap "can't find my brand, learn the remote right away" on bottom, then go to Step 6.2.

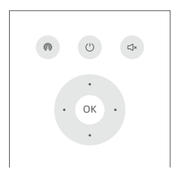
STEP 6.2 If no option matched



If you find the brand but no option is matched, you have two choices:

- Tap "Learn button" to skip retry and directly go to STEP 6.3.
- Tap "Continue match" and follow the wizard to try other options may fit your model.

STEP 6.3 Learn IR code



- Choose a room for this appliance and name it.
- Tap "Use device now" to the panel page then tap a gray button you want to learn.
- Follow the wizard to learn the button then test the button on app and save it.
- Repeat until required buttons are learned, then go to STEP 8

STEP 6.4 IR code learning notice

Short press

- Aim your appliance remote control at the Universal Remote, please wait for device LED indicator lighting up then shortly press the remote button you want to learn.
- Tap "..." on top right corner and choose "Relearn buttons" if certain button is not working normally.

STEP 7.1 Add RF appliances

RM4 pro only

- Tap "Add appliances".
- Choose a category (ex. Curtain) and a brand.
- Make sure your RF device is in pairing mode. Tap "Use device now" and follow the wizard to pair the code.
- If you can't find your brand, please choose to learn remote and go to STEP 7.2.
