

Nice

# Connected anytime, anywhere

The Nice **HubPowerbank** is a mobile 3G/4G (LTE) router with USB power supply.

HubPowerbank allows you to connect the **Yubii Home** or **Home Center 3 Lite** hubs to a backup power source and if installed a SIM card, to an additional WiFi internet connection.

**Backup WiFi** 802.11b/g/n network for smart home hub and other devices

**Internet access** from 3G/4G (LTE) by SIM card (not included)

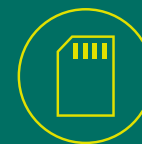

Various **battery saving** modes

**Powerbank feature** – USB rechargeable battery of 4600mAh

**SMS** sending and receiving

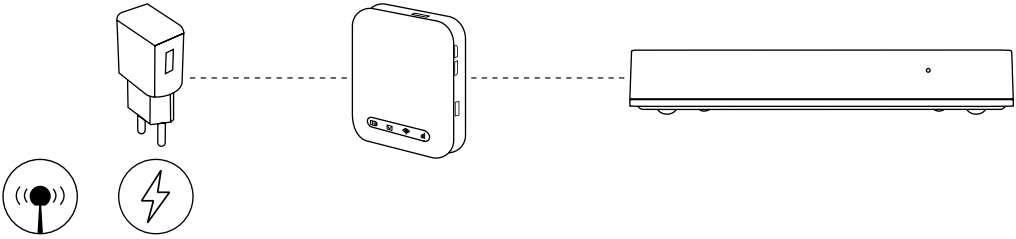

Slot for **SD card**

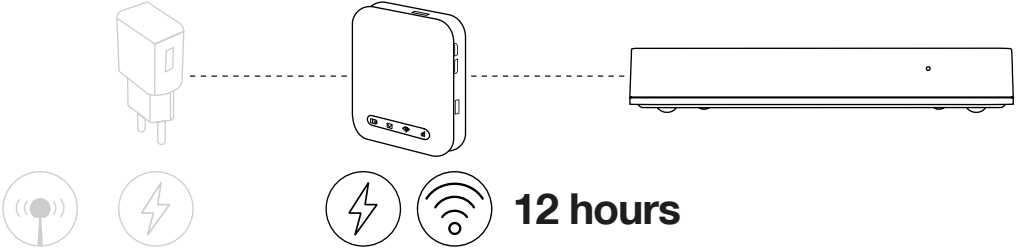

# Why HubPowerbank?

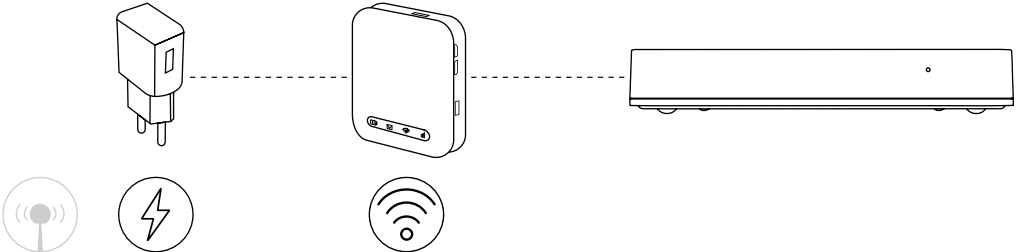

**As standard**, the smart home hub will use the main power source and router Wi-Fi network.

**In the event of a power failure**, the device will automatically switch to a backup source. After power network outage the HubPowerbank can provide power and internet connection up to 12 hours.

**In case of failure or temporary absence of internet connectivity**, the HubPowerbank ensures connection to the cloud, guaranteeing all gateway functionalities.

Nice

What if the power suddenly fails because of a storm?

You can still receive notifications **from all the sensors** present in the house

You can still receive notification **in case of flood, fire or burglary attempts**

Nice
